SUMMARY

Highly skilled and creative Full-Stack Developer with a background in Computer Engineering and a proven track record of building scalable, responsive, and visually engaging web applications. Proficient in React.js, NextJS, Node.js, TypeScript, and AWS services. Adept at collaborating across teams, mentoring developers, and delivering high-quality solutions under tight deadlines. Ready to drive project success as a Lead Full-Stack Developer.

EXPERIENCE

NGL LOGISTICS, Full Stack Engineer

- Designed and developed a full-stack logistics platform using React/Next.js, Node.js, and TypeScript, improving backend performance and reducing delivery issues.
- Developed a comprehensive admin dashboard, streamlining administrative workflows and enhancing security with Firebase Storage and Nodemailer.
- Engineered a modular backend architecture, improving system scalability and deployment efficiency, ensuring long-term flexibility and ease of extension.

Debt Tracker, Frontend Developer

- Built a debt management web application from scratch, translating the Figma design into a fully responsive and user-friendly interface using React and TypeScript.
- Integrated secure RESTful APIs to enable real-time tracking and management of debts and repayments.
- Deployed the complete application to Vercel, ensuring optimized performance, scalability, and seamless user access.

Terminal Africa, Frontend Developer

- Built dynamic, responsive user interfaces with React.js and Tailwind CSS, enhancing user experience and engagement.
- Collaborated cross-functionally with backend developers and designers, ensuring product consistency and reducing deployment issues.
- Translated technical requirements into user-friendly interfaces, improving customer engagement and task completion time.

Vascan Technology Limited, Frontend Developer

- Developed and maintained an online art store using React.js and NextJS, integrating Stripe for payment processing and MongoDB for data handling, enhancing transaction efficiency.
- Coordinated with clients and internal teams to ensure the successful completion of technical projects, improving project delivery timelines.
- Improved customer engagement and task completion time through the development of user-friendly interfaces and seamless backend integration.

*Pramie, Frontend Developer, **Frontend (Intern)***

- Improved workflow efficiency by developing and implementing custom software solutions, enhancing overall productivity.
- Utilized GitHub and GitLab for version control, ensuring seamless collaboration and code management.
- Enhanced user experience through the development of responsive and user-friendly interfaces, increasing task completion time.

EDUCATION

University of Lagos

BSc - Computer Engineering

Yaba College of Technology

ND - Electrical Engineering

LICENSES & CERTIFICATIONS

NodeJs - The complete guide (MVC, REST APIs, GraphQL, Deno)

Udemy • uc-c377c2f7-0ac7-4f7d-80c3-22a3e00a3326 • Issued May 2025

SKILLS

Frontend Development

React.js · Next.js · TypeScript · JavaScript (ES6+) · React Query · Redux · HTML5 · CSS3 · SCSS · Tailwind CSS · Material UI · Bootstrap

Backend Development

Node.js · Express.js · RESTful APIs · GraphQL · Firebase (Realtime Database, Authentication, Storage) · MongoDB · PostgreSQL

Tools & Platforms

VS Code · Git · GitHub · Postman · Vercel · Netlify · Namecheap · Firebase Console

System Architecture & Integration

API Design & Integration · Authentication Systems (JWT, OTP) · Realtime Systems · Cloud Integration · Data Flow Design

Soft Skills

Team Collaboration · Technical Documentation (SOPs & APIs) · Agile Methodology · Problem Solving · Communication · Project Management

Languages - English, Igbo, Yoruba, French
